EDUCATION

JSS Academy of technical education

Electronics and Communication Engineering Bachelor of Technology

Sector 62 ,Noida

Nov 2021 - Aug 2025

SKILLS

Programming Languages: Python, Java, HTML /CSS, Cython
Libraries/Frameworks: Django, .streamlit, OpenCV, Kivy, Pandas, Numpy, Bootstrap, Flask
Tools / Platforms: PyCharm, VScode, Git Codespace

PROJECTS / OPEN-SOURCE

AI Chatbot | [Link](#)

Python, .streamlit, CSS

An AI-powered chatbot developed using Python's Streamlit framework and integrated with the Llama 2 API for natural language processing.

Key Features:

- Engage in intelligent conversations with -context-aware responses.
- Streamlit-powered interface for smooth user interaction.
- Backend built with Python for efficient integration with Llama 2 API.
- Customizable AI models (7B, 13B, 70B) for tailored user experiences.
- Seamlessly echoes user input until API token is entered, ensuring continuous interaction.
- Responsive design for seamless user interaction across all devices.

Portfolio Website

Python, Django, HTML, CSS, Javascript

Successfully developed and deployed a multi-page portfolio website using Django on the backend and HTML/CSS/JS on the frontend, deployed via GitHub.

Key Achievements:

- Designed and implemented a responsive, multi-page layout featuring sections such as Home, About, Portfolio, Resume, and Contact.
- Utilized Django's ORM for efficient data management and dynamic content rendering.
- Showcased projects with descriptions and images, highlighting skills and achievements.
- Integrated a secure contact form using Django's form handling capabilities.
- Ensured cross-device compatibility and responsiveness for optimal user experience.
